FORTY-FIFTH CONGRESS.

Appropriations for the Payment of Claims---The Matthews' Committee.

By telegraph to the News

WASHINGTON, June 12.—The President, pro tem., laid before the Senate a communication from the Secretary of War, enclosing a letter from the commanding General of the Department of Texas, calling attention to the difficulty in obtaining information to follow orders, and recommending the erection of a line of telegraph along Nueces River. The Secretary approves the recommendation of General Ord, and asks that an appropriation be made for that purpose. Ordered to be printed and lie on the table.

The Senate passed the House bill making appropriations for the payment of claims reported allowed by the Commissioners of Claims, under the act of Congress of March 3rd, 1871, together with the amendments extending the time for taking evidence and submitting claims, in cases now pending, until March 10th, 1879; and also extending the term of office of the Commissioners of Claims until March 10th, 1880; Provided that nothing in the act shall be so construed as to extend the time for filing claims before said commission, or to enlarge its jurisdiction, or to authorize the filing of new claims.

Conkling, of New York, from the Committee on Commerce, reported without amendment the House bill to organize the life saving service. Placed on the calendar.

He also reported from same committee without amendment, House bill to aid vessels wrecked or disabled in waters contiguous to the United States and the dominion of Canada. Placed on the calendar.

From same committee, favorably, on the Senate bill authorizing the Southern Pacific Railroad Company to construct, maintain and operate a bridge across the Colorado river at Hyuma, in the State of Colorado and Territory of Arizona. Placed on the calendar.

HOUSE.—The Mexican award distribution has gone to the Committee of Conference.

The Judiciary Committee has postponed action on Kimmell's bill until Friday, in order to allow the chairman, Mr. Knott, to write his minority report. The majority report endorses the Potter committee, and urges full investigation so that the facts may be known and punished as provided by the Constitution and laws, but declares the House incompetent to move in matters settled by the last session, as regards the action of the High Commission and the title which it conferred on Hayes.

HOUSE.—The whole session was consumed in the consideration of the civil sundry appropriation bill. No final action.

The Conference Committee on the Postoffice appropriation bill came to terms on yesterday afternoon, and another of the general appropriation bills is disposed of. There still remain to be agreed upon, the legislative, executive and judicial, the sundry civil, the deficiency, the river and harbor, and the army bills.

Confirmations—John C. Fremont, Governor of Arizona; John H. Wilcher, of West Virginia, Pension Agent at Washington; Lewis McKenzie, Postmaster at Alexandria, Virginia.

The Matthews Committee of the Senate this evening reconsidered the motion to postpone. They will meet tomorrow in open session, and will have Anderson and Darrell before them.

The Senate passed the deficiency appropriation bill without amendments, and proceeded to consider bills on the calendar. The eight hour bill was postponed to the next session.

HOUSE.—The river and harbor bill, as amended by the Senate, is under consideration.

Sherman's Letter to the Honest Money League.

By Telegraph to the News.

WASHINGTON, June 12.—Secretary Sherman has written a letter to the Honest Money League, in session at Milwaukee. He says: "It is manifest that my public duties will not permit me to leave this city at that time, or I should be glad to join with you in the effort you are making to secure to the people of the United States honest money, by which I mean United States or National bank notes, convertible at the will of the holders into gold and silver coin. For now sixteen years we have had money which lacked the essential ingredient of being equal in purchasing power to coin, varying in value from forty cents on the dollar to nearly par. We have how reached a time when we can hope that our paper money will be maintained at par with coin, and thus secure an honest money, equal in value to money of the civilized world. Under the law as it now stands we undertake to maintain in circulation a greater amount of government notes at par with coin than any nation has attempted before. The law also provides for the issue and circulation of as many bank notes, secured by United States bonds, as any company or association of five or more persons will agree to maintain and secure their maintenance at par with the United States notes. The largest amount of paper money that has the indispensable requisite of redemption in coin can now be circulated, and besides our country is producing annually about 80,000,000 dollars in gold and silver bullion. Surely this result, so anxiously sought by most intelligent statesmen and business men of our and other times, should not be endangered by adopting any wild theories about irredeemable paper money without a fixed standard of value; yet it is to oppose and defeat such schemes that it becomes necessary that your organization of those in favor of good money should be encouraged and supported by the whole of the business and industrial classes of the community who are in favor of greenbacks, supplemented by bank notes, amply issued under a general law to all who will comply with its conditions should unite with us in maintaining a system which, if successful, will furnish the best currency that has ever existed in any country."

By Telegraph to the News.

NEW YORK, June 12.—Geo. P. Hart, Commissioner from Florida to the Paris Exposition, was arrested in Bayonne yesterday on a capias issued by Judge Knapp, on application of Henry De Zavala, a lawyer of this city. A Homicide for Five Cents in Yancey.

Charlotte Observer.

A gentleman from the Western part of the State brings information to this city of the killing, near Young's mill, in Yancey county, on Saturday night last, of Samuel Butner by Thomas Boone. Boone is the constable of the township in which he resides and went to Butner to collect a debt of five cents. Butner denied owing the money, and in the course of a heated colloquy which followed, Boone produced a knife with which he fell upon Butner, cutting and slashing him in such a manner as to produce death. The slayer fled, and has not been arrested. The county authorities have offered a reward of $125 for his apprehension.

Mr. Taylor also states that there is another vast depression in the same mountain, which appears to have originated from a similar cause; the "canyon" formed being about three hundred yards long and three hundred feet deep, with large trees and rocks standing intact, the whole having the appearance of having sunk en masse.

DEMOCRATIC GOVERNMENT.

The City Finances of Wilmington.

Wilmington Star.

The Mayor called our attention yesterday to some facts and figures in connection with the financial status of this city, which shows that the Mayor and Board of Aldermen are doing a good thing in the way of reducing the taxes of our over-burdened people. The valuation of real estate in 1877 amounted to $3,832,800, and this year to $2,874,668, the difference being attributed to the depreciation of property in consequence of the financial pressure, which has been felt in every community. In 1877 the tax levied was 2 per cent, and the amount realized $76,657, 80, while this year the tax is 1½ per cent, and the amount to be raised $50,306 68, making a difference of $26,351 14 in the amount for the two years. In the personal tax there has also been reduction of $2,352, and in the merchants' license tax of $9,000, as compared with last year, making a total reduction of $37,703 14. For instance, in 1877 the tax on $5,000 in real estate was $100, while this year it will only be $65,63, making a total of $37,37 on the $5,000 valuation in favor of the taxpayers this year as compared with last. The poll tax of the city for 1878 is $1, the same as last year. Mayor Fishblate further states that at the time of his induction into office, the floating debt of the city amounted to $10,000, which has since been reduced to $4,000, and that all warrants against the city are now paid on presentation. The estimates for the expenses of the city this year only amount to $46,000, against an average of about $122,000 under previous administrations, and the mayor says he expects to get along with even less than that amount. These facts, taken altogether, are not only encouraging to tax payers, but indicate that our Democratic administration is in a fair way to place our city affairs on a good financial footing.

The President and the Investigation.

New York Herald.

Nobody any longer pretends that the Democrats intend to attack the Presidential title, or that the Potter investigation looks in that direction. That bugbear which the awkwardness of the Democrats gave the Republicans an opportunity to raise has already developed facts of such importance as, to some extent at least, justify it in the public mind. That a deliberate forgery of one of the most solemn and important documents ever executed in this country has been committed seems to be established; certainly, if Mr. Potter makes no other discoveries, this, which shown the desperate character of the so-called Republicans in Louisiana and gives a necessary warning to the country against other attempts of this kind, is sufficient.

When Secretary Sherman gave an uncertain answer to the plain question about the letter to Anderson, it was resentment at the thought of discredit cast on the country by the imputation meekly accepted by him which all honorable men felt. When men high in place and power are found to stoop to dirty intrigues and consort with common scoundrels, forgers and perjurers, such as some of the Louisiana Republicans are proved to be, they bring disgrace not merely on themselves, but on the country. We were bitterly disappointed, therefore, when Secretary Sherman did not deny writing the alleged letter, as we had reason to expect he would. And while we have not the remotest thought that President Hayes has been involved in such matters he bought to know that the persistent and abundant favor he has shown to men who were conspicuous in the doubtful political transactions of 1876 has lowered him in the general esteem, and robbed him of the respect and confidence of the best men in the country.

He has deliberately and continually used the federal patronage to reward and honor men the country knows to be disreputable; whom he knows, in common with everybody else, to be tainted with the disgraceful maladministration in the Southern States; whom he could not have thought of appointing or retaining in office if he had sought persons of unblemished character and reputation, and to whom everybody sees he extends his favor for no other reason than that they helped by dubious means to raise him to the Presidency.

Death of Maj. J. W. Wright.

Charlotte Observer.

Maj. Julius W. Wright died yesterday morning at 1:30 o'clock at the boarding house of Mrs. Connelly, Icard Station, Burke county. Maj. Wright was a native of Wilmington, a son of Joshua Wright; and a graduate of Capel Hill. After his graduation he studied and entered upon the practice of the law in Wilmington, but abandoned it to enter the Confederate service. After the close of the war he moved to Georgia, where he married and settled. After living there for some time he returned to North Carolina, and early after its establishment became the editor of the Observer. He lived in Charlotte for some time and then removed to Statesville where he was for a while one of the editors of the Intelligencer of that place. After this he opened a law office in Statesville, but on account of failing health moved to Hickory which has for the past two years been his home. The immediate cause of his death was dropsy.

Our Candidates.

Lincoln Progress.

We place at our mast-head this morning the names of two of our nominees for Judges of the Superior Court.

J. C. L Gudger, who was nominated at Waynesville on the 22nd of May, is a gentleman of great moral worth, temperate in all his habits, untiring in industry, and a sound Democrat. He is a near relative of the lamented Governor Swain, and is respectably connected all over the trans-mountane country. The late Solicitor, James M. Gudger, of Yancey, the wittiest and funniest man in the State, is his cousin.

Major Avery is a man of solid worth, a pure patriot, unflinching Democrat and sound lawyer, and commands respect wherever he goes. Among the Democratic jewels in North Carolina, none are brighter than the nominee for Judge in the future 8th District. We predict for him a successful and honorable career.

Senatorial Rumors.

Charlotte Observer.

Strange rumors reach us from Raleigh of combinations forming, and schemes now being pushed, having for their object the defeat of Governor Vance for the United States Senate. The friends of the righteous gentleman who cannot look upon electioneering in Governor Vance with any degree of allowance, are fairly splitting their shirts for the defeat of this gentleman. The reports which reach us, together with recent publications in the Raleigh Observer, indicate that it is hoped to compass this end by a combination upon General Alfred M. Scales, when it is seen that Merrimon has no chances, as seen it soon will be, for he has wonderfully little personal strength.

Bank Tribute.

Wilkesboro Witness.

There is no despotism anywhere else on earth equal to that in this country which compels the great body of the people to pay tribute to banks, which give the whole body of the people as security for bank issues, which makes these issues money, which loans to the banks without interest as much currency as the banks can find customers to loan it to at a high rate of interest, and which by this means subjects all the business of the country to the say so of these banks. Where else is there such a despotism the whole world over? Where else but in these United States are the people by act of government compelled to sustain and support and to pay tribute to banking institutions?

Dr. M. T. Yeates.

Wilmington Star.

The Nashville (Tenn.) American pays Rev. Dr. M. T. Yeates, the able North Carolina Baptist Missionary to China, a deserved compliment when it says "he is regarded as the greatest of the Southern Missionaries." Dr. Yeates was born in Wake county, was graduated at Wake Forest College, and has been in China for thirty years. He is probably about fifty-seven years old. The American says:

"During the war, when all supplies were cut off from him, he went to work as interpreter for the Chinese Government, and devoted the money he earned in this capacity entirely to his mission."

Correspondence of the News.

DURHAM, June 11.

The Convention to nominate a candidate for Solicitor of the Fifth Judicial District, met here to-day, and assembled in Matthews' Hall. It was called to order by Col. John A. Gilmer, Chairman of the Democratic Executive Committee of the District.

On motion, Capt. Jas. A. Graham, of Alamance, was called to preside as permanent chairman, and was conducted to the chair by Messrs. Glenn and J. T. Morehead. The chairman briefly explained the object for which the Convention was assembled.

On motion the editors of the Democratic papers present were requested to act as Secretaries, and J. D. Cameron and W. A. Davis took their seats as such; and on motion R. W. Best, reporter for the Observer, took his seat as assistant secretary.

S. H. Webb moved that all Democrats present from the county of Orange, in good standing with the party, be permitted to participate as delegates. On motion of Dr. S. D. Booth the motion was laid on the table.

On motion, J. D. Cameron, Secretary, proceeded to call the roll of the Convention, and all were present by delegations except the county of Randolph.

J. A. Long moved that in casting its vote, each county shall be entitled to the number of votes corresponding to its number of representatives in the lower House of the General Assembly.

Mr. Lansdale moved as an amendment that the chairman of each County Executive Committee be authorized to cast the vote of the county; and the amendment was accepted, and the question was put upon the motion of Mr. Long, and it was lost.

Mr. Lansdale moved that the Convention cast its vote on the basis of the Democratic vote cast in the election of 1876; and that each county be entitled to one vote for every hundred votes cast for Zebulon B. Vance, and one vote for every fractional part over fifty.

Dr. S. D. Booth moved that no one in nomination be considered elected unless he had received a two-thirds vote of the Convention.

On motion a recess was taken to allow the delegations from the different counties to consider this motion. On the reassembling of the Convention the roll of the counties was called, and the motion was defeated, being sustained only by the counties of Chatham, Franklin and Granville.

Mr. Williams, of Granville, moved that before the Convention proceed to a vote a correction be made in the tabular statement before the Convention, in which the vote of Granville is stated at 2,134, entitling it to only 21 votes in the Convention, by including the vote of a rejected township subsequently declared a lawful return, and the motion was adopted, and the vote of Granville was received as 2,441, and its vote in this Convention at 24.

On motion of Col. John A. Gilmer, nominations were declared in order.

Mr. Reid, of Rockingham, nominated Frederick N. Strudwick, of Orange.

Mr. Williams, of Granville, nominated W. H. Jenkins, of Granville.

The vote was then taken by counties:

For Mr. Strudwick, Alamance gave 14 votes, Caswell 15 votes; Guilford 23 votes; Orange 24 votes; Person 6 votes, and Rockingham 21 votes—103 votes.

For Mr. Jenkins Chatham gave 21 votes; Franklin 19 votes, Granville 24 votes and Person 6 votes—70 votes.

Before the vote was declared Mr. Williams announced the change of the vote of Granville from Mr. Jenkins to Mr. Strudwick; Mr. Mitchell made the same announcement of the part of Franklin; the same was made on behalf of Chatham, and the six votes of Person were transferred to Mr. Strudwick, and Mr. Strudwick was declared unanimously nominated.

On motion Mr. Strudwick was invited to appear before the Convention and he briefly addressed it in appropriate terms.

And there being no further business before the Convention, it was adjourned *sine die*.

Chairman.

Neither Cowardice Nor Hypocrisy.

Correspondence of the News.

The people know that the News will give forth no uncertain sound. The subject which is in all men's mouths is Judge Merrimon's card. If your paper, which has an opinion ready to express upon every other subject, had none upon this most important issue, involving the solidarity of the party, it could not plead principle. Silence in such a case could only arise from cowardice or hypocrisy. Thank Heaven, the party and the public have in the News a paper free from all taint of either.

A TRUE DEMOCRAT.

June 11th.

Warren County Items.

We learn from H. A. Foote, Esq., of the Warrenton Gazette, that a severe hail storm passed over the western portion of Warren on Sunday last. Great damage was done to the corn and cotton crops, and in some places the wheat and oat crops.

Mr. Aaron Hudgins, a well known and highly respectable citizen of Warren county, died at his residence last Friday evening, of paralysis, in the 64th year of his age.

Mr. Henry Martin, one of the oldest citizens of Warren, died at his residence, near Warrenton, last Saturday evening. He was respected and esteemed by all who knew him.

The Tax on State Banks.

Charlotte Observer.

General Vance will submit an amendment to the internal revenue bill, providing for a repeal of the tax of 10 per cent. on the circulation of State banks. This is a popular measure, but if the amendment should prevail (it is not likely to) and State banks are again established in North Carolina, we trust that greater safeguards will be thrown around their operation than ever before, otherwise they will prove to the people a greater snare than ever was the fabled Trojan horse.

If you have a bad taste in your mouth, sallowness or yellow color of skin, feel stupid and drowsy, appetite unsteady, frequent headache or dizziness, you are "bilious," and nothing will arouse your liver to action and strengthen up your system equal to Dr. Pierce's Golden Medical Discovery. It is sold by druggists. *dl wl.

WATAUGA declares for Colonel G. N. Folk, for Associate Justice of the Supreme Court.

WM. CULLEN BRYANT, orator, poet and editor, yesterday closed a long, eventful and singularly pure life. His works constitute his highest encomium.

IT is stated that the counties of Carteret, Onslow, Pamlico, Craven, Jones, Lenoir, Greene, and probably Wayne, are for Judge Matthias E. Manly, of Craven, for Associate Justice of the Supreme Court.

THE county convention of Watauga, last Saturday, instructed the delegates to the Wilkesboro Congressional Convention, which meets on the 25th of June, to vote for Lieutenant Governor R. F. Armfield for Congress from that District. The vote of the District is fourteen. Necessary to a choice eight. That number has been instructed for Armfield.

IN response to a paragraph in these columns of the thirtieth of May, personal to himself, Mr. R. W. Best writes the News a note to say:—"I do not know Mr. Churchill, and of course have no recollection of any conversation with him. I talk, however, to many persons whom I do not know, and I may have talked with him. But neither to him, nor to any one, have I made such a statement as is alleged in your editorial."

THE applications for aid while attending the Normal School at our University, are so many that the Board of Education cannot give to any teacher more than enough to meet his expenses in getting to and from Chapel Hill. Were the fund devoted to the assistance of teachers with limited means, enlarged by the gifts of friends of education in North Carolina, many who deserve help would be enabled to do better work for their country.

Dtstrict Judicial Ticket.

The Judicial ticket presented by the Democrats of the districts in which occur vacancies on the Superior Court Bench, is complete, and presents itself to the Convention for consideration and endorsement.

It is not doubtful what the result will be respecting the names of the three gentlemen who are presented for Judges of the Superior Court. Under the present plan of Democratic organization it was necessary to request the Districts to send up their nominations for review by the State Convention. But this was rather formal than otherwise, and unless from the Districts come formidable opposition to the names already designated, the nominations will of course receive the sanction of the State Convention.

Without in the least desiring to assume the appearance of dictating or forestalling the public opinion of the Convention, the News, having already spoken on the subject, does not hesitate to endorse the action of the people of the Districts, and to recommend the gentlemen designated to the confidence of the whole people of North Carolina.

The Convention.

The Democracy of North Carolina is in Convention to-day.

The people in all the counties have taken measures to have their will and wishes expressed before the highest tribunal of the Democratic party, and their delegates are here fully informed and instructed as to the sentiments and desires of those from whom they come.

The assembling of a State Convention is always an event of great political importance, but at no time within the history of the Democracy has more significance attached to a meeting of the representative Democrats of North Carolina.

Hitherto the State Conventions of the party have been for the purpose of laying down platforms, selecting delegates to National Conventions and choosing the executive officers of the State government. District and county conventions were held for selecting representatives in the national and State Legislatures. But this meeting is of greater moment than any which has preceded it. Conventions for naming those who were to execute the law, and county meetings to nominate gentlemen to make the laws, the people have participated in, but this Convention is charged with the duty of designating a tribunal which shall declare what the law is, and in respect to the matter of its choice, from the tribunal which shall be so designated, there can be no appeal on matters affecting the lives, liberties and properties of the people.

It is well therefore, that the representatives of the people, now assembled in the State Capital on one of the highest public duties, appreciate the importance of their mission, and bring to the discharge of that duty that calmness and deliberate, discriminating judgment, coupled with the lofty patriotism of a settled purpose to do the whole duty; which has ever distinguished the North Carolinian in whatever position he has been placed, from the council chamber of the party to the field of national action and sanguinary conflict.

That the gentlemen who are to-day the guests of the capital city of the State, and upon whose credentials are stamped the sovereignty of North Carolina, come prepared to execute the will and wish of a conservative constituency, there is, looking back to the traditions of the Democracy, no room in the public mind for doubt or apprehension. That the sessions of the Convention may be harmonious and marked by that spirit of unity which has always characterized the Democratic party on the eve of great political victories, is the desire of all those good people, who at their homes to-day await the tidings from Raleigh.

And not alone are the eyes of the people of the State turned in this direction to-day, but the national Democracy awaits with some concern the results of to-day's work in North Carolina. In the political structure of this great republic North Carolina is a central figure. She is the great conservative commonwealth of the solid south, one of the original thirteen, and it was in her borders that the fires of liberty were first kindled, her soil the first to drink the blood of the patriot who had defied the authority of royal tyranny. It was from these very hills and valleys that went forth to the North the cry which signalized a bond of union that no subsequent events have been sufficient to sever, "the cause of Boston, is the cause of all."

Therefore, standing in full view of the eyes of the nation, the great Democratic heart of the Union in full sympathy with them, let North Carolinians, remembering the ancestry from which they sprung, the traditions of that great party which has been the promoter of their laws and the preserver of their liberties, appreciating a common duty and called together for a high purpose, lay aside all sectional ambitions or personal preferences, and as one man march up to the line of public duty and lay upon the altar of the Democratic party the covenant of united and harmonious action.

Fish Hatching.

The amount of work done during the Spring of 1878, both by the Fish Commission of the United States and the Department of Agriculture of the State of North Carolina, exceeds, by far, anything previously accomplished in this line on the American continent.

In the specialty of fish supply, by artificial propagation, the United States leads the world, and European governments, appreciating the vital necessity of the fish supply under public auspices, are paying an attention to the subject, and sending their men of science to this country for instruction, in a manner calculated to fully develop the phrenological bump of self-esteem always marked up to the full maximum in every chart of the American head.

Mr. S. G. Worth, of the State Department of Agriculture, has just returned from the Havre de Grace station of the United States Fish Commission, where, for the last six weeks, he, with fifty other experts, working under the direction of Professor Spencer L. Baird, has been working night and day in the enterprise of artificial shad hatching. He brings encouraging accounts of the results accomplished, and thus as an auxiliary to the government Fish Commission, the State of North Carolina, through her Agricultural Department, has taken a leading position among the States of the Union in a great work of practical enterprise.

Through the efforts of Governor Vance, seconded and efficiently promoted by the North Carolina delegation in Congress, the national government, last Spring, made an appropriation of seventeen thousand five hundred dollars to be expended under the direction of Professor Baird, the United States Fish Commissioner, in order that the propagation of shad by artificial means might go immediately on, the regular appropriation for that purpose not becoming available until the first of July, after the shad season had passed, and too late for operations this year. As soon as the appropriation was made work began in the Albemarle Sound, and the State of North Carolina, through its Agricultural Department, was invited to cooperate, and avail itself of the benefits of a new system of shad hatching by means of an artificially produced current in water confined in tanks.

During the shad season, which ended about the middle of May, all fishing on the Albemarle ceasing about that time, eight millions of young shad were turned loose in the waters of North Carolina; and the United States Commission, transferring operations to Havre de Grace, invited the Agricultural Departments there, and continue the operation of shad hatching, and reap the benefits of a still further distribution of young fish in the waters of North Carolina.

That the reader may derive some idea of the operations of our Agricultural Department in this matter of fish propagation, the following detailed statement of the distribution of young shad during the Spring of 1878 is submitted.

There were hatched at the station of Avoca, on Albemarle Sound, eight millions of young shad. Of these, one fourth were turned loose in the Sound, for want of transportation to distribute them in the interior. In the rivers of North Carolina, and waters flowing into the State, the distribution was as follows:—Nottoway river, 111,000; Meherrin, 150,000; Chowan, 350,000; Roanoke, 460,000; Cape Fear, 200,000; Tar, 250,000; Neuse, 150,000; Catawba, 50,000; Yadkin, 50,000; Lower Catawba, 50,000; Lower Yadkin, 50,000.

From this showing nearly two million of young shad have been distributed in the tributary waters of the State, in addition to the two million turned loose in the Sound, and all this work has been done at a cash outlay of less than four hundred dollars by the State of North Carolina. But for the want of transportation facilities, a greater and much more satisfactory distribution of the young fish might have been accomplished, as the young fish will not live in tanks longer than eight or ten days, and the distribution has had to depend upon the steamer and railroad lines. By another year better preparations will have been made, and the Department of Agriculture now having several thoroughly instructed young men at its command, will be able to accomplish all that is expected of it in regard to the propagation of shad in all the waters of the State.

While this work has been going on in North Carolina, the United States Commission, operating on the Albemarle, and after its removal to Maryland, was busy in the distribution of fish in the waters of other States. For instance the total hatch on the Albemarle aggregated eight millions, and at Havre de Grace twelve millions. These were sent to every Southern and Northwestern State.

It will thus be seen that the general government has been liberal in its labors for the good of all the States, and that to North Carolina, in the early movement of her Executive and through her delegation in Congress (Mr. Yeates introduced the bill) are all of the sisterhood indebted for a supply of young shad, which otherwise would have been impossible.

Grape Culture and Wine.

Mr. A. Speer, of New Jersey, one of the largest grape producers in the east, commenced but a few years ago in a small way to make wine from currants, blackberries, and other fruits. He now controls large vineyards from which his famous Port Grape Wine is made, which chemists and physicians say rival the world for its beneficial effects on weak y and aged persons.

ELECTION, THURSDAY, AUGUST 1st.

Liver is King.

The Liver is the imperial orgrn of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

Keep Cool.

This is a bit of good advice in these "trying" times. 'Tis also a suggestion easy to follow, since by investing in Blake's Ice, the purest and best, one can have a luxury to cool a fevered brow or a parched throat. In our climate ice has a thousand uses and is a necessity. *

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, free of charge. There is Trouble in Store.

For those who neglect to rectify irregularities of the stomach, liver and bowels, which they foolishly imagine will "come right of themselves." Of this silly error such persons are usually disabused by the development of some serious chronic malady, traceable to what they were pleased to consider a trifling disorder of the above named associate organs. Such a culmination is easily avoided. A course of Hostetter's Stomach Bitters invariably has the effect of renewing the secretive action of a torpid liver, restoring healthy digestion and assimilation, and rendering the habit of body perfectly regular. The activity of these all important functions being restored, and the entire system toned and regulated by this incomparable corrective and invigorant, no danger to the general health is to be apprehended from causes which, if not eradicated in time, will assuredly undermine it. ju11-5t

JUSTICE AVENGES!

Murderer Captured--The Crime and the Slayer.

For the crime of larceny, Henderson Alford, a negro, resident in this county, was, in September, 1876, imprisoned in the county jail in this city. He bore the reputation of a desperate character, and was watched carefully. He made no attempt at escape until one Sunday, September 17th, in that year. As the deputy sheriff and jailer, Mr. James J. Rogers, was giving him his food that day, the prisoner suddenly jumped on him, threw him to the floor, striking him in the face a terrific blow, stunning him. He then jumped upon the jailer, and took his pistol. With the butt of this weapon he gave Mr. Rogers another blow.

In the cell with Alford three negroes were confined. One of these, a notable criminal, was shackled. The two others were engaged in giving water to the other prisoners. These two ran up as soon as Mr. Rogers fell on the floor of the passage, and took away the jail keys. They then unlocked the door opening into the yard, and went out, calling to Alford to follow. This he at once did, and the three fled. The day was very dark, gloomy and stormy. The stunned jailer could not give the alarm until he recovered consciousness, which was after some minutes

Pursuit, however, was made, though it was not known which way the men had gone. Word was sent to White Oak Township, the home of Alford, and the deputy sheriff, Thomas J. Passmore, discovered the man. On attempting to arrest him, Alford resisted, and pulling out the pistol taken from Mr. Rogers, shot him dead, again making his escape. The next day some of the men in the neighborhood organized a sort of pursuit, and one of the posse shot the murderer with a rifle, inflicting a severe wound in the thigh. Yet again he escaped. On the 20th September a reward of $300 was offered by Gov. Brogden for him.

Since that time he has lived here and there, nearly always in hiding, and several times pursued, and once surrounded in a swamp. But he ever eluded capture until Tuesday last. Information had been given that he was at work on a farm in Franklin county, 12 miles from Kittrells-Messrs. J. M. Sorrell, J. H. Lowe and W. C. Lowe, residents of this county, heard where he was, and went in search of him. One of these had worked with him. He was found cutting wheat and at once surrounded. His pursuers then suddenly made a rush and seized him. He was after this captured, tied hand and foot, lashed to a wagon and brought in and placed in the county jail here. There is a true bill against him for murder, so he will there be held until next term of Crimnal Court.

Alford is a large, rawboned man, iron muscled, and a giant in strength. His captors made claim at the Executive office for the $300 reward, which was at once paid them. The killing of Passmore, who was a man of some local celebrity, and a good officer and citizen, attracted much attention at the time, and the capture of his murderer has been long hoped for.

The D. D. and Blind Asylum. The Colored Department.

On Tuesday evening at Metropolitan Hall, the annual concert and entertainment was given by the colored pupils of the D. D. and B. Asylum, complimentary to the colored citizens. Prof. H. A. Gudger, Principal of the Institution, presided, and exhibited the progress and acquirements of the pupils. The programme was varied and entertaining, and the songs, recitations, narrations, of stories in the sign language were by turns pathetic and amusing. The exercises on the blackboard showed the proficiency of the scholars. The department and appearance of the pupils were both good, while their attention to instruction and quick perception of their duties showed careful training. The manner in which this branch of the Institution is conducted is admirable, and reflects great credit upon the Principal as well as upon the corps of teachers. The vocal powers of the singing class are wonderful.

We give a programme of the evening's exercises, which proved interesting to an audience that entirely filled the spacious hall.

Song—"Glory to God in the Highest." The Lord's Prayer, (in signs.) Recitation in Poetry. Exercises by Deaf-Mute beginners. Song—"Let me kiss the Baby." Story, (in signs.) Song—"Gathering Home." Words (in signs.) "Corn Song." Hymn (in signs.) Song—"Jubilee of Heaven." "Power of Habit." Story in signs—"Christ walking on the Sea." Dialogue—"Scrapewell and Derby." Song—"Aim High. Exercises by Deaf Mutes, (advanced class.) Reports. Song—"Ho! for Carolina.

The Ætna Life Insurance Co., is successfully developing a branch of business not generally practiced. This company offers at very moderate terms—from twenty-five to fifty per cent. less than ordinary life rates—to secure business firms from losses by insuring the lives of parties indebted to them. Payment for goods frequently depends upon the purchaser living a sufficient time after the purchase has been made to realize upon the goods. By insuring the life of the purchaser, as provided in the plan in operation by the Ætna, the purchase money is secured beyond peradventure. Partners of business firms are also afforded under this plan an opportunity to insure their lives; the amount of the insurance to be paid at the death of either to the surviving partner. W. H. Crow, General Agent.

BEAUTY:

OR THE

Secret of a Fair Face.

AN ITEM OF INTREST TO EVERY LADY WHO DESIRES TO BE MORE BEAUTIFUL THAN SHE NOW IS.

Unfortunately no one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA

BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness eruptions, redness blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the plainest face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and while it is as harmless as water, it is so life-like in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.
